HOTEL CARON DE BEAUMARCHAIS

Want to feel like you're stepping onto the set of *The Marriage of Figaro*? This one's for you. Hotel Caron de Beaumarchais—nestled in the *Marais*, the most preserved corner of Paris—takes its inspiration from the Age of Enlightenment. Even just standing outside the 18th-century home, you'll feel like you've stepped back in time. With only 19 rooms inside, you'll receive the extra care that makes staying in a boutique hotel so special.
